WHAT TO CHOOSE?!

Stand Up Paddling is the fastest growing water sport for a reason: everyone is able to find their inner explorer on a SUP board. Break away from work and turn to the water to relax and energize your spirit. The moment you step on your board you will find yourself in a completely different world. It doesn't matter where or when you go. Discover the Jobe SUP collection now. Jobe produces the best value and most advanced construction along with the most complete packages.

AERO SUP COLLECTION

When you don't live close to the water an inflatable paddle board is just way more convenient than a hardshell board like our bamboo and titan boards. Everything fits into one small waterproof backpack, which makes it easy to take it with you anywhere you go. Our inflatable boards are the lightest and stiffest on the market and..... we offer a 3 year warranty on all of our aero boards.

BAMBOO SUP COLLECTION

Our Bamboo boards are perfect when you live close to the water, or when you have a lot of storage place. A great benefit is that you don't have to inflate the board before you get on the water. Also, a bamboo board is slightly faster and more responsive than an inflatable paddle board. And last but not least, the bamboo finish looks really luxurious.

TITAN SUP COLLECTION

As strong as titanium: The Titan series is forged of elements resulting in an ultra-strong SUP board. They can handle heavy impact and have one of the highest levels of buoyancy due to a durable soft EPS core wrapped in a monocoque fiberglass layup. Blended together with the world's strongest polycarbonate shell - created with vacuum molding - the Titan is engineered to handle heavy impact.

WE BUILD THE FUTURE OF SUP

Jobe has more than 25 years of experience in water sports. The knowledge and experience we have gained over the years have created unimaginable synergies that allowed us to design the world's highest quality SUP boards, which are ready to perform. We don't let the past predict our future. That's why we are always continuing to do research about SUP. In that way we are sure we are able to develop better products and improve the sport for you.

AERO SUP BOARD HEAT BONDED TECHNOLOGY

Jobe inflatable Aero SUP boards are designed with your need to travel in mind. Our unique Heat Bonded Technology make our boards the lightest on the market. The pounds we save in glue and materials do not only make our boards more durable, but imagine the difference in weight it makes while you're in the outdoors scouting for that hidden lake to paddle. Obviously we've thought about your transportation too: all boards come in a waterproof backpack, so you can pack your gear and discover the world!

sup 62

KEY FEATURES

- **3 YEARS WARRANTY** after registration within 14 days after purchase on www.jobesports.com/happycustomers
- **HEAT BONDED TECHNOLOGY** stiff, lightweight and durable.
- **X-STITCHING** stronger, lighter and safer board.
- **INFLATABLE TO 20 PSI** for optimal stiffness.
- **COMPLETE PACKAGE** with everything you need to start paddling.
- **INTEGRATED RAILTAPE** to protect the sides of your board and extra airtightness.
- **STRINGER** for more stiffness and durability

3 YEAR WARRANTY

Jobe inflatable boards are the safest and most durable boards on the market. That is why we back up our claim with a 3 year Warranty. Happy paddling!

Make sure you make a registration within 14 days after your purchase on www.jobesports.com/happycustomers to validate the 3 year warranty

★ ★ ★

THE CHOICE IS YOURS!

We offer complete SUP packages selected by our experts, which include a waterproof backpack, a fiberglass paddle, a double action pump, a leash, a fin & a repair kit. You're instantly ready to get on the water.

Or, create your own customized package by selecting the gear tailored to your needs and budget.

For example, upgrade your sup package with an electric pump or a carbon paddle. Or reduce expenses by not adding a waterproof sup back pack to your package. Customize it to your own likings!

YOU'VE GOT TO PUMP IT UP

We offer different pumps to fully inflate your aero SUP board. Depending on your budget you can go for the work out pump like the double action pump or choose for the laid back style and go for the electrical sup pumps. We love to make life easy!

BAMBOO SUP BOARD CONSTRUCTION AND INNOVATION

DIAMOND GROOVED EVA DECKPAD

Experience increased comfort on our bamboo beauties so you can focus on what really matters: discovering Mother Nature.

CHANNELS FOR EXTRA TRACTION

Channels are a great example of our synergizing experience in water sports. Being widely accepted in our other board sports, we are now the first company to incorporate this technique in our SUP boards. The result is a board that's made to perform!

CLICK & GO

Our bamboo beauties have unique click fins to make sure you are on the water in no-time. No tools and never worrying about losing your fin screw again.

KEY FEATURES

- **LIGHTWEIGHT** boards because of the lightweight EPS core
- **CHANNELS** more tracking on the water. Only on 10.6 and 11.6 Sup-boards.
- **REAL BAMBOO VENEER** blended with glassfiber means great looks
- **RAILSAVERS INCLUDED** to protect the edges of your board.
- **EVA FOAM DIAMOND SHAPE** for more grip and comfort.
- **CLICK FIN INCLUDED** no screws needed
