## A FAVORABLE PRICE QUALITY RATIO

Jobe's price-quality ratio becomes even more favorable when Jobe wakeboards are combined with Jobe bindings in a set. Jobe bindings fit on every wakeboard so you can endlessly combine to fit your expertise and style. The best thing, Jobe packages combining wakeboard and binding are our best price value!

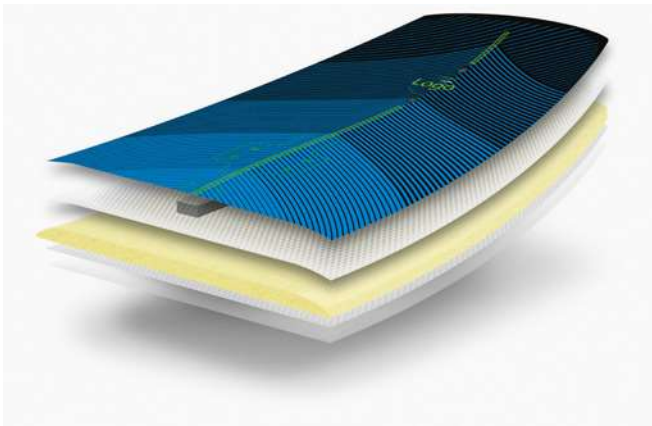

## JOIN OUR FAMILY

No matter who you are, no matter your skill level or what your background, as long as you want to get on the water, you'll find the proper products from Jobe Sports. The Jobe wakeboard collection 2020 is carefully balanced and designed to be able to offer everyone the best time on the water.

# WAKEBOARD TECHNOLOGY

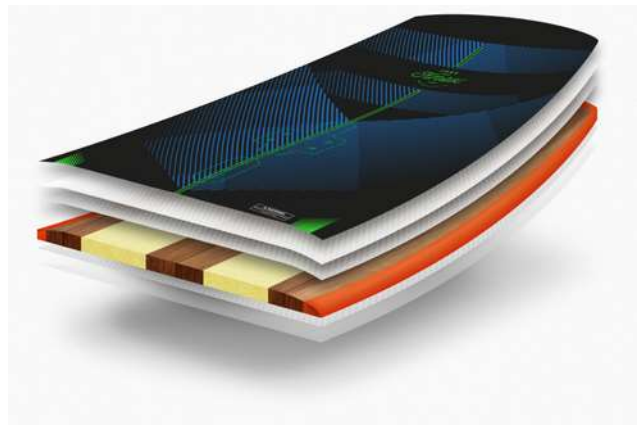

## FOAM CORE

### FUNCTIONAL AND RELIABLE

Used in: Maddox, Prolix, Vanity, Logo & Jinx

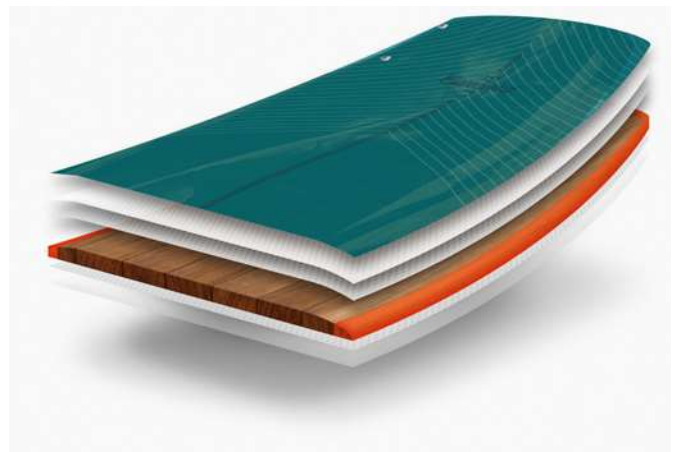

## HYBRID CORE

### THE ULTIMATE COMBINATION BETWEEN FLEX AND STRENGTH

Used in: Conflict, Breach and Knox

## WOOD CORE

### DURABLE AND FLEXIBLE

Used in: Reload and Concord

Jobe wakeboards differ in speed, traction and flex. A narrow tip and tail makes you go faster, channels on the bottom ensure more traction and the core of the board gives it its flex. Find max flex in our full wood core boards; they are great for the cable parks. Look for boards with a H.I.T.-base for extra durability if you like to rock the features in the park. Want to go big behind your boat? You'll want more stiffness that gives a better release off the wake. Find it in our boards with hybrid or foam cores.

# ROCKERS

## THREE STAGE

Looking for aggressive pop and an easy lock? Three-stage is the way to go. A shape which gives a competitive edge to your board.

## CONTINUOUS

This rocker is great for beginners. The shape gives you a relaxed feel and most speed on the water.

## HYBRID

This rocker is the best of both worlds. It combines the speed of a continuous rocker with the aggressive pop of a three stage rocker.

### KNOX

Rocker beams for center stiffness. Deep grooved channels for maximum traction and control. Triple concave tip and tail for extra traction and control.

### BREACH

Deep grooved channels for maximum traction and control. Bottom design with extra surfaces for a more playful ride. Concaved tip and tail for traction and control during release. Narrow tip and tail for responsiveness and speed.

### CONFLICT

Smooth grooved channels for moderate traction and control. Bottom design with extra surfaces for a playful ride.

### CONCORD

Shallow grooved channels for moderate traction and control. Bottom design made with extra surfaces for a more playful ride. Concaved tip and tail for traction and control during release.

### RELOAD

Shallow grooved channels for moderate traction and control. Bottom design made with extra surfaces for a more playful ride. Smooth channels in the tip and tail for extra traction and control.

### MADDOX

Deep grooved channels for maximum traction and control. Wood veneer layer for stiffness and durability. Hybrid edge for extra durability.

### PROLIX

Smooth grooved channels for moderate traction and control. Rolled edge for extra durability.

### VANITY

Deep grooved channels for maximum traction and control. Molded fins for extra traction and control. Narrow tip and tail for responsiveness and speed.

### LOGO SERIES

Double concave bottom design for smooth landings. Molded fins for extra traction and control.

# CHOOSE YOUR WAKESURFER

There's a wakesurfer for every style. If you want to go more skim style to perform some tricks, go for a responsive shorter board. Are you more into mainstream surfing? Then we got you covered too, look for a moderate larger responsive board. These boards are also great for family-use, be sure to pay attention to maximize user weight and ability.

# TREND ALERT

Wakesurfing is the up and coming board sport for behind the boat. Everyone can do it, just make sure your boat is able to produce the right wake. Because it is so easy, it's a great activity for the entire family. Want to progress some more? We offer you a broad collection to make sure you can achieve your goals!
